

Apple Certified Pro: Logic Pro

Differentiate yourself to employers and prospective clients as an Apple Certified Pro, and gain a competitive edge in the ever-changing job market. Apple certification programs create a benchmark for assessing users' proficiency in Apple's professional applications. Level One certification attests to basic operational knowledge of the application. Level Two demonstrates knowledge of advanced features and a deeper understanding of the application.

In Level One you will get an introduction to the primary feature set and basic interface of Logic Pro for creating, recording, and performing your music. To become an Apple Certified Pro in Logic Pro, Level One, students must register for and pass the Level One Apple exam. This training is suitable for those interested in music production and composition using either Logic Pro or Logic Express.

Half-time to full-time students should be able to complete one Office Skills Certificate in two semesters or fewer. A schedule of 12 or more classes in a semester is full-time. Six classes is half-time.
