

Website Design I

The Website Design certificates focus on building and maintaining professional and effective websites. Various tools and techniques for web editing, graphics, and marketing are presented.

Level I provides a beginning overview of web design, and Level II provides the advanced training needed for the job market. Level II participants may choose a design or development concentration or a combination. You may work on Levels I and II consecutively or concurrently.

Half-time to full-time students should be able to complete one Level Certificate in two semesters or fewer. A schedule of 12 or more classes in a semester is full-time. Six classes is half-time.
