

Phlebotomy Certificate Program

SUMMER 2012

Our Phlebotomy Certificate Program prepares individuals to enter into the medical profession as a phlebotomist. This nine-week training prepares students for this entry level career in the demanding healthcare field. In course 38205, students complete 60 hours of theory, lecture and review, 60 hours of lab and a 100-hour clinical experience at a local clinical site.

Spring 2012

Discover Phlebotomy (38204) is your chance to decide if this medical career is for you. Learn about blood draws and the risks and rewards of this in-demand occupation. Consult with a working phlebotomist about job placement and salary range. Learn about the national certification through the American Society for Clinical Pathology's Certified Phlebotomy Technician (ASCP PBT) exam.

Requirements

Students must be at least 18 years of age, possess a high-school diploma or GED, be willing to complete a background check and verify completion of the Gold Career Readiness Certificate (download the FAQ from <http://dce.unm.edu/phlebotomy-2.htm>). Students need to be current on immunizations that are required for working in the field; it is recommended that students also have current health insurance.

To apply, prospective students will need to verify all pre-requisites. The deadline to apply for the summer certificate program is May 15.

Please schedule student advising with the Program Supervisor to submit your application packet. For more information, visit our program website at: <http://dce.unm.edu/Phlebotomy.htm>. Enroll early as seats are limited.
